

E-Work Permit

8 Steps to Use the e-Work Permit System

Application for a Work Permit for Foreign Nationals

1. Register to Use the System

Users must register via the e-Work Permit website before accessing the system.

2. Submit a Work Permit Application

Users select the menu to submit a work permit application according to the type required, which must be filed online.

3. Pay the Application Fee

After submitting the work permit application, users must proceed with the payment.

4. Document Verification

After payment, users must check and verify the required documents.

5. Check Application Approval Status

Users must log in to check the approval status of their application through the website.

6. Pay the Permit Issuance Fee

Once the application is approved, users must pay the required government fee.

7. Schedule an Online Appointment

Users must schedule an appointment online to visit the service center for work permit issuance.

8. Visit the Service Center as Scheduled

Users must visit the designated service center on the appointment date to complete the work permit issuance process.
